### **Rapid Shutdown System – FireRaptor**

**FRS-01\_04**

### **Rapid Shutdown System – Emergency Rapid Shutdown Switch**

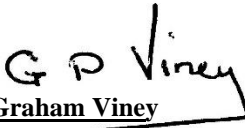

**FRS-ESW1, FRS-ESW1-K, FRS-ESW2, FRS-ESW2-K**

This equipment has been tested and verified to be in compliance with the limits for FCC CFR47 part 15.107 Class B - Conducted Emissions and FCC CRF47 Part 15.109 Class B - Radiated Emissions. These rules are designed to provide reasonable to provide reasonable protection against harmful interference for unlicensed/residential premises.

This equipment generates and can radiate radio frequencies, and if not installed and used in accordance with the instructions, may cause harmful interference with radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment should cause such interference, which can be determined by turning the equipment off and on, then the user should consider relocation of the product in order to increase the separation between the equipment.

Alterations not approved by the compliance authority may void the user's authority to operate this equipment and therefore conform to the protection requirements of the Council Directives
